PROFESSIONAL SUMMARY

AI/ML Engineer and Software Developer with over 1 year of hands-on experience in developing AI-powered solutions, deploying machine learning models, data analysis, website optimization, and content strategy. Microsoft Certified Machine Learning Operations Engineer Associate and Oracle Cloud Infrastructure 2024 Generative AI Certified Professional. Eager to build a successful career in SEO and Digital Marketing with strong analytical skills, basic understanding of SEO principles, website performance optimization, keyword research, content optimization, and technical problem-solving using Python, HTML, CSS, JavaScript, analytics tools, and digital marketing platforms with excellent communication and willingness to learn.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML, CSS

Frontend Development: React.js, HTML, CSS, JavaScript, Responsive Design, Frontend Basics, Google ADK, MCP

Backend Frameworks: Django, Flask Basics, FastAPI, REST APIs

API Integration: REST APIs, API Design, Third-Party API Integration, Backend-Frontend Integration

SEO & Digital Marketing: SEO Principles, On-Page SEO, Off-Page SEO, Technical SEO, Keyword Research, Content Optimization, Meta Tags, Schema Markup, Link Building, Website Audits, Local SEO, Google Business Profile, XML Sitemaps, Robots.txt, Core Web Vitals, Digital Marketing, Content Marketing, Social Media Marketing

SEO Tools & Analytics: Google Search Console, Google Analytics 4, Google Tag Manager, Ahrefs, SEMrush, Screaming Frog

CMS: WordPress

ML & AI Frameworks: PyTorch, TensorFlow, Keras, Hugging Face Transformers

NLP & Deep Learning: Natural Language Processing, Transformer Architecture, CNN, Training Loops, Evaluation Pipelines

Data Science & Analytics: Machine Learning, Deep Learning, ETL, Feature Engineering, Data Cleaning, Data Analysis, Website Performance Optimization

Data Science Tools: Pandas, NumPy, Scikit-learn, OpenCV, Matplotlib, Seaborn, Power BI, Microsoft Excel

Database Management: MySQL, SQLite, PostgreSQL, Database Design, SQL Queries

Developer Tools: Git, GitHub, Docker, VS Code, Jupyter Notebook, Google Colab, PyCharm

Soft Skills: Problem Solving, Good Communication, Learning Attitude, Team Collaboration, Project Discussions, Attention to Detail, Quick Learning, Structured Team Environment

EXPERIENCE

Data Analyst Intern

May 2026 – Jul 2026

Bluestock Fintech

Pune, Maharashtra

- Built an end-to-end Mutual Fund Analytics Platform using Python, SQL, SQLite, Pandas, and Power BI
- Performed data cleaning, ETL pipelines, SQL data modeling, and financial analytics on large datasets
- Developed interactive Power BI dashboards and calculated key performance metrics including CAGR, Sharpe Ratio, and Maximum Drawdown

Data Scientist Intern

Jul 2023 – Feb 2024

Luminar Technolab

Kochi, Kerala

- Worked on real-world data science projects using Python, NumPy, Pandas, and SQL
- Built machine learning models and created interactive Power BI dashboards
- Performed data preprocessing, feature engineering, and applied Deep Learning and NLP techniques

Django Full-Stack Developer Intern

Aug 2022 – Feb 2023

Inmakes Infotech Pvt Ltd

Kochi, Kerala

- Developed full-stack web applications using Python, Django, HTML, CSS, and JavaScript
- Integrated relational databases and implemented CRUD operations for dynamic web applications
- Tested, debugged, and deployed Django-based applications while collaborating with the development team

PROJECTS

- MindCare AI – Smart Mental Health Counselling System** - [GitHub](#) Dec 2025 – Mar 2026
- Developed a multimodal AI-powered mental health counselling system using text, voice, facial, and behavioural analysis
 - Implemented NLP-based counselling chatbot and CNN models for facial emotion and voice stress detection
 - Applied supervised machine learning to analyse behavioural patterns and predict stress risk levels
 - Combined multi-source analysis to generate stress severity scores and personalized recommendations using Python, FastAPI, React.js, NLP, CNN, SQLite
- WildGuard AI – Human-Wildlife Conflict First Responder** - [GitHub](#) Jun 2026 – Jul 2026
- Developed an AI-powered wildlife conflict monitoring system using autonomous multi-agent workflows
 - Implemented threat detection, PII redaction, and secure emergency response workflows
 - Integrated real-time weather intelligence and species-specific safety recommendations for risk assessment
 - Built using Python, Google ADK 2.0, MCP
- FinSight N100: Enterprise-Grade Financial Intelligence & REST API** - [GitHub](#) Jun 2026 – Jul 2026
- Engineered an automated financial intelligence platform analyzing 10 years of historical data for 92 NSE Nifty 100 companies using Python and Streamlit
 - Developed a high-performance FastAPI backend, K-Means ML clustering, and interactive 9-screen Streamlit dashboard with 50+ advanced KPIs
 - Implemented automated NLP keyword tagging, rule-based qualitative pros/cons generation, and NLTK VADER sentiment analysis
 - Built using Python, FastAPI, Streamlit, K-Means, NLP, NLTK VADER
- FundLens: End-to-End Mutual Fund Analytics Platform** - [GitHub](#) May 2026 – Jun 2026
- Built a business intelligence platform using Python, Power BI, and SQL to analyze live mutual fund data
 - Engineered advanced risk modeling using VaR and Monte Carlo simulations with a robo-advisory recommendation system
 - Designed an automated ETL pipeline for dynamic REST API ingestion and SQLite Star Schema data warehousing
 - Built using Python, SQL, Power BI, Streamlit, REST APIs, and SQLite
- Hostello – Hostel Management System** - [GitHub](#) Aug 2025 – Oct 2025
- Developed a full-stack hostel management system using Django for student and warden operations
 - Implemented attendance tracking, leave requests, complaints, and room cleaning workflows
 - Automated hostel and mess fee calculation with notifications and admin approvals
 - Built using Python, Django, JavaScript, HTML, CSS, SQLite
- DocPlus – Doctor Appointment System** - [GitHub](#) Dec 2022 – Mar 2023
- Developed a doctor appointment web application using React.js and Firebase
 - Implemented authentication, appointment scheduling, and real-time database management
 - Built using React.js, Firebase, Node.js, HTML, CSS, JavaScript

EDUCATION

- Master of Computer Applications (MCA)** Sep 2024 – May 2026
SCMS School of Engineering and Technology (SSET)
APJ Abdul Kalam Technological University (KTU), Kerala
Ernakulam, Kerala
- Bachelor of Science (B.Sc.) in Computer Science** Oct 2020 – Mar 2023
College of Applied Science (CAS)
University of Calicut, Kerala
Malappuram, Kerala

CERTIFICATIONS

- **Microsoft Certified: Machine Learning Operations Engineer Associate** – Microsoft
- **Oracle Certified: Oracle Cloud Infrastructure 2024 Generative AI Certified Professional** – Oracle
- **Introduction to Internet of Things (Elite)** – NPTEL (IIT Kharagpur)
- **Microsoft Azure AI Essentials Professional Certificate** – Microsoft & LinkedIn Learning
