PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence professional with 1+ year of hands-on experience in data analysis, statistical analysis, dashboard development, reporting, and delivering actionable business insights. Microsoft Certified Machine Learning Operations Engineer Associate and Oracle Cloud Infrastructure 2024 Generative AI Certified Professional, skilled in developing AI-powered solutions and deploying machine learning models. Experienced in collecting, validating, and analyzing data from multiple sources, tracking KPIs, building data visualizations, and collaborating with cross-functional teams to support data-driven decision-making using Python, SQL, Excel, Power BI, and business intelligence tools.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML, CSS, R
Frontend Development: React.js, HTML, CSS, JavaScript, Responsive Design, Frontend Basics, Google ADK, MCP, D3.js
Backend Frameworks: Django, Flask Basics, FastAPI, REST APIs
API Integration: REST APIs, API Design, Third-Party API Integration, Backend-Frontend Integration
ML & AI Frameworks: PyTorch, TensorFlow, Keras, Hugging Face Transformers
NLP & Deep Learning: Natural Language Processing, Transformer Architecture, CNN, Training Loops, Evaluation Pipelines
Data Science & Analytics: Machine Learning, Deep Learning, ETL, Feature Engineering, Data Cleaning, Data Analysis, Business Intelligence, Statistics, KPIs
Data Science Tools: Pandas, NumPy, Scikit-learn, OpenCV, Matplotlib, Seaborn, Power BI, Microsoft Excel, Tableau, Looker
Database Management: MySQL, SQLite, PostgreSQL, Database Design, SQL Queries
Developer Tools: Git, GitHub, Docker, VS Code, Jupyter Notebook, Google Colab, PyCharm
Soft Skills: Problem Solving, Good Communication, Learning Attitude, Team Collaboration, Project Discussions

EXPERIENCE

Data Analyst Intern May 2026 – Jul 2026
Bluestock Fintech Pune, Maharashtra

- Built an end-to-end Mutual Fund Analytics Platform using Python, SQL, SQLite, Pandas, and Power BI
- Performed data cleaning, ETL pipelines, SQL data modeling, and financial analytics on large datasets
- Developed interactive Power BI dashboards and calculated key performance metrics including CAGR, Sharpe Ratio, and Maximum Drawdown

Data Science Intern Jul 2023 – Feb 2024
Luminar Technolab Kochi, Kerala

- Worked on real-world data science projects using Python, NumPy, Pandas, and SQL
- Built machine learning models and created interactive Power BI dashboards
- Performed data preprocessing, feature engineering, and applied Deep Learning and NLP techniques

Python - Django Full-Stack Intern Aug 2022 – Feb 2023
Inmakes Infotech Pvt Ltd Kochi, Kerala

- Developed full-stack web applications using Python, Django, HTML, CSS, and JavaScript
- Integrated relational databases and implemented CRUD operations for dynamic web applications
- Tested, debugged, and deployed Django-based applications while collaborating with the development team

PROJECTS

MindCare AI – Smart Mental Health Counselling System - [GitHub](#) Dec 2025 – Mar 2026

- Developed a multimodal AI-powered mental health counselling system using text, voice, facial, and behavioural analysis
- Implemented NLP-based counselling chatbot and CNN models for facial emotion and voice stress detection
- Applied supervised machine learning to analyse behavioural patterns and predict stress risk levels
- Combined multi-source analysis to generate stress severity scores and personalized recommendations using Python, FastAPI, React.js, NLP, CNN, SQLite

WildGuard AI – Human-Wildlife Conflict First Responder - GitHub	Jun 2026 – Jul 2026
• Developed an AI-powered wildlife conflict monitoring system using autonomous multi-agent workflows • Implemented threat detection, PII redaction, and secure emergency response workflows • Integrated real-time weather intelligence and species-specific safety recommendations for risk assessment • Built using Python, Google ADK 2.0, MCP	
Hostello – Hostel Management System - GitHub	Aug 2025 – Oct 2025
• Developed a full-stack hostel management system using Django for student and warden operations • Implemented attendance tracking, leave requests, complaints, and room cleaning workflows • Automated hostel and mess fee calculation with notifications and admin approvals • Built using Python, Django, JavaScript, HTML, CSS, SQLite	
DocPlus – Doctor Appointment System - GitHub	Dec 2022 – Mar 2023
• Developed a doctor appointment web application using React.js and Firebase • Implemented authentication, appointment scheduling, and real-time database management • Built using React.js, Firebase, Node.js, HTML, CSS, JavaScript	

EDUCATION

Master of Computer Applications (MCA) <i>SCMS School of Engineering and Technology (SSET)</i> <i>APJ Abdul Kalam Technological University (KTU), Kerala</i>	Sep 2024 – May 2026 <i>Ernakulam, Kerala</i>
Bachelor of Science (B.Sc.) in Computer Science <i>College of Applied Science (CAS)</i> <i>University of Calicut, Kerala</i>	Oct 2020 – Mar 2023 <i>Malappuram, Kerala</i>

CERTIFICATIONS

- **Microsoft Certified: Machine Learning Operations Engineer Associate** – Microsoft
- **Oracle Certified: Oracle Cloud Infrastructure 2024 Generative AI Certified Professional** – Oracle
- **Introduction to Internet of Things (Elite)** – NPTEL (IIT Kharagpur)
- **Microsoft Azure AI Essentials Professional Certificate** – Microsoft & LinkedIn Learning
